

AFFIDAVIT

On 10/28/05 at around 10:17 pm I approached officer Johnson to let him know that I was sick and needed to see Sgt. Butler. Officer Johnson grabbed me by my neck and choked me . After the incident of the officer choking me, he told me to go back to my bed, where I began to vomit on my sheets and blanket. I went to the door to tell again I was sick and he told me to "get away from the door before I slap the 'shit' out of you" I asked for him to call the Sgt. and he said that he's not calling the Sgt. and he didn't. After I exchanged words with him he finally called the Sgt. and Sgt. Butler came to the Dorm. Sgt. butler took me to the shift office and told me that after count cleared that she would take me to the infirmary. I was then taken to the infirmary after the count cleared and was given a body chart stemming from Officer Johnson's choking.

I complained to the Asst. Warden and he said that "he didn't care as the officer did not hurt you"

Respectfully,
